

Michigan Public Safety Broadband Regional Workshop

Opening Presentation

Introductions

Region 8 Workshop Agenda

10:00 – 10:30am	Welcome and MiPSB Overview	Brad Stoddard
10:30 – 11:00am	Region 8 Use Case	
11:00 – 11:20am	Interactive Session 1: Regional Issues	Facilitated Discussion
11:20- 11:35am	Break	
11:35 – 11:40am	Pick Up Box Lunch	
11:40 – 12:30pm	Interactive Session 1: Read-Out	Facilitated Discussion
12:30- 1:00pm	Data Collection	Carroll Faulkner
1:00 – 1:30pm	Interactive Session 2: Coverage Requirements	Facilitated Discussion
1:30 – 1:45pm	Interactive Session 2: Read Out	Facilitated Discussion
1:45 – 2:00pm	Break	
2:00 – 2:20pm	State Plan Development	Brad Stoddard
2:20 – 2:40pm	Interactive Session 3: Local Outreach & Education Plan	Facilitated Discussion
2:40 – 2:50pm	Interactive Session 3: Read Out	Facilitated Discussion
2:50 – 3:00pm	Next Steps & Wrap Up	Brad Stoddard

A Mobility Transformation

Last year, **mobile phones** overtook PCs as the most common web access device worldwide

90 percent of young people use smart devices before getting out of bed in the morning

Mobility for Public Safety

...is CRITICAL

Wearables, Connected Cars and TV's will equal the tablet market by 2018

The Internet of Things for Public Safety

Integrated Display Glasses

Visual display of critical status alerts

Video Remote Speakers Microphone

Capture and stream live video

Broadband Communications Devices

Public safety LTE Broadband communications and mission-critical applications

Gun Holster Sensor

Gun unlock alert

Environmental Sensor

Detection of hazardous materials

Biomonitoring

Monitor officers' health and vitals

APX 700 Radio

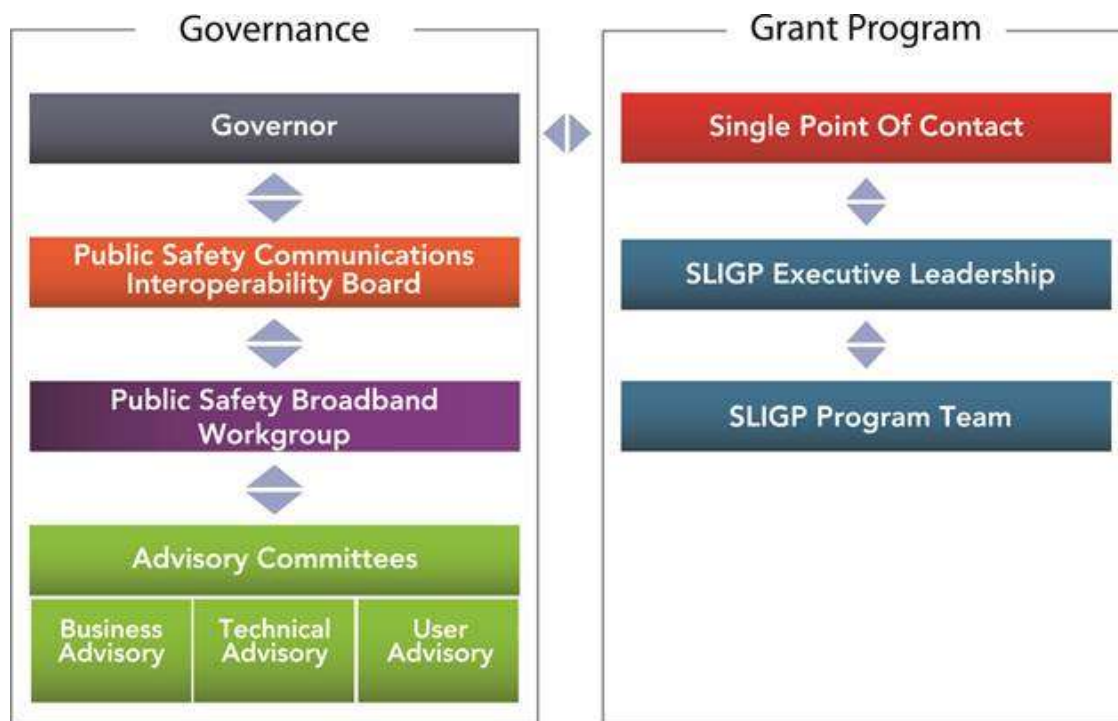

Interoperability, collaboration and always-on communications

Public Safety Communications Interoperability

MiPSCIB Board and Broadband Working Group

Col. Kristie Etue
Undersheriff Michelle LaJoye-Young
Sheriff Dale R. Gribler
Mr. Robert L. Marchand
Mr. Bryce A. Tracy
Chief Adam L. Carroll
Mr. Richard Miller
Chief Gary Hagler
Ms. Eileen Phifer
Mr. Mark Meijer
Dr. Jacqueline Scott
Mr. Eddie Washington
Mr. Jeffrey A. Friedland
Ms. Julie L. Secontine
MSG Jeromie J. Golab
Capt. Chris Kelenske
Mr. Bradley A. Stoddard

What is meant by Opt-In / Opt-Out?

OPT-IN

FirstNet Responsibility

- Construct the RAN within the state
- Operate the network from a business perspective
- Set and collect user fees

Agency Responsibility

- NOT mandated to adopt or use the network
- If using the network, must pay user fees and pay for devices

What is meant by Opt-In / Opt-Out?

OPT-OUT

- ☐ Michigan must build and operate the RAN
- ☐ Michigan must negotiate CLA with FirstNet to utilize FirstNet core
- ☐ Michigan must negotiate spectrum lease agreement with FirstNet
- ☐ A 180-day clock is activated
 - ✓ Michigan must develop deployment plan to be approved by FCC and NTIA
 - ✓ Michigan can still apply to NTIA for grant funding
 - ✓ If the Michigan State Plan is not completed or approved within 180 days, then the State will automatically Opt-in
- ☐ Revenue generated by the State must go to FirstNet
- ☐ SLIGP funding cannot be used for any opt-out planning

Michigan's Game Plan

From unplanned emergencies...

The Blackout

1-96 Pile Up

Floods

Wildfires

Riots

Enbridge Oil Spill

- Increased/Enhanced interoperability for first responders
- Shared Services and Consolidation.
- Savings across government by reducing:
 - Parallel infrastructure
 - Multiple disparate radios
 - Operating costs
 - Hardware and software costs
 - Maintenance costs

... to planned events

MIS - NASCAR

All Star Game

Super Bowl

NCAA Tournament

Cyber Attacks – By the Numbers

Each Year in Michigan State Government:

- 2.5 million web browser attacks
- 179.5 million HTTP-based attacks
- 79.5 million network scans
- 5.2 million intrusion attempts

**2014 statistics*

That is 1.7 million attempted attacks every day

*** YTD 2015 Statistics*

2016 Consultation Vision

1

- Expanded outreach and education with state/territory, tribal, local, and public safety entities

2

- Obtaining state and territory input to inform State Plans and network deployment policies, processes, and procedures

3

- Preparing key decision-makers for State Plan delivery and network deployment

2016 Expanded Outreach and Engagement

State Engagement Strategy will identify expanded customer base for aligned state/territory and FirstNet outreach.

2:00 – 2:20pm	State Plan Development	Brad Stoddard
2:20 – 2:40pm	Interactive Session 3: Local Outreach & Education Plan	Facilitated Discussion
2:40 – 2:50pm	Interactive Session 3: Read Out	Facilitated Discussion
2:50 – 3:00pm	Next Steps & Wrap Up	Brad Stoddard

Exercise No. 1: PS Broadband Priority Issues

1. At your table, discuss the “*mobile data communications issues*” for your county/area.
2. Reach consensus on the ranking of the concerns (“10” is the highest priority issue and “1” is the lowest priority).
3. If your table has an important issue that is not on the list, rank the “other” field as that issue and then describe.
4. Describe any features of your area that present unique challenges for public safety.

Issues Ranking

Common issues experienced by public safety responders relative to mobile data communications.

(10 = Highest priority; 1 = Lowest Priority)

- ☐ Commercial carriers in my region are limited or non-existent
- ☐ Poor coverage
- ☐ Monthly service cost
- ☐ Equipment costs
- ☐ Capacity / network congestion
- ☐ Customer Service
- ☐ Lack of data applications
- ☐ Network reliability
- ☐ Lack of data interoperability
- ☐ Other: _____

Are there other significant or unique issues regarding mobile data communications in your area?

(Examples: *Recreational areas that often involve search and rescue, utility restoration issues, border or bridge issues, high-security prisons, etc.*).
